#### Fringe Activities @ \*SCAPE Gallery (Level 5)

Time	Programme	Description
11.30am	Playback Theatre: "Memories Matter"	Unlike a conventional theatre show, there is no script in Playback Theatre. Come build a community dialogue with us through this interactive format, as we share experiences of how dementia has changed family life, the challenges and joys of being a caregiver, or even personal anecdotes if you are a person living with dementia yourself.  In support of the <a href="#">Forget-Us-Not</a> initiative.
1.30pm	Movie Screening: "The Kid From The Big Apple"	Directed in 2017 by Malaysian film by director Jess Teong, 'The Kid From The Big Apple 2: Before We Forget' gives us a Southeast-Asian take on caregiving, highlighting issues and challenges that arise when a family embarks on their journey with dementia. Join us as we go on this delicate and emotional journey about dementia, denial and identity, and how a family is ultimately brought together with hope, #DespiteDementia.
3.30pm	Post-Movie Dialogue Session	In this engaging panel discussion immediately following the movie screening, ADA is proud to present Ms Kate Swaffer as well as a local person with dementia and their caregiver. The dialogue session will cover

		topics such as the common misconceptions surrounding dementia, loss of identity for the person with dementia and common support services available to caregivers.
