- Identify strategies for promoting person-centred care
- Describe the impact of dementia on professional staff
- Recognise signs and symptoms of stress, compassion fatigue, and burnout
- Apply self-care strategies for self and caregivers

Training Methodology

Lecture, Class/Group discussion

Target Audience

Front-line care staff and volunteers who would like to be equipped with a basic understanding of how to care for people living with dementia in a variety of settings including the family home, centre-based services, and residential care facilities.

Course Time

2pm – 5.30pm

Course Fee: \$101.12 (Including GST) Prevaling course fee subsidy at 90% for Singaporeans/PRs and 45% for Work Pass Holders working in eligible community care organisations.

Trainers' Profile

Ms Fong Yoke Leng is a trained nurse with many years of experience in managing social, rehabilitation and dementia day centres. As one of the lead trainers for the Dementia Singapore (formerly known as Alzheimer's Disease Association (ADA) Training Programmes, she has inspired many caregivers with her dynamic training style and passion for dementia care. Fong was formerly the Centre Manager of ADA's New Horizon Centres at Jurong Point and Tampines, and the coordinator for the MINDVital and MINDActive programmes at the Centre of Geriatric Medicine, Tan Tock Seng Hospital. These programmes were for persons with dementia and their caregivers in the Cognitive and Memory Disorders Service. Fong holds a Master of Clinical Rehabilitation from Flinders University, Australia, and has attained the WSQ Advanced Certificate in Training and Assessment (ACTA).

Core Module 1

Person-Centred Care aims to provide learners with strategies to promote person-centred care and apply self-care strategies for both professional care staff and family caregivers.
