## Singapore's first one-stop resource portal on dementia

Singapore's first one-stop resource portal on dementia, co-developed by Dementia Singapore and the Agency for Integrated Care, aims to raise awareness about the condition and support persons living with dementia and their caregivers in the community.

This knowledge hub serves as a key touchpoint for members of the community and corporations, persons living with dementia, caregivers and care professionals based on your needs. You can gain quick and easy access to curated information and resources about dementia and be connected to a network of support and services.

Find credible, comprehensive and up-to-date information and resources on dementia including engaging persons living with dementia, self-care, caregiving tips, services, and many more!

DementiaHub.SG is brought to you by:

Supported by QiC
