

Purposeful and Meaningful Engagement in Dementia Care aims to equip learners with the knowledge and skills to promote meaningful activity and engagement to meet individual needs of persons living with dementia.

This course is one of the 5 modular courses that can be stacked to attain a “Certificate of Accomplishment” in Foundations of Person-Centred Dementia Care. Refer to the roadmap for all the other modular courses below. Learners can choose to register for individual modular courses that meet the immediate needs at their own pace, and a “Certificate of Performance” will be issued upon the successful completion of each course.

Course Objectives

- Recognise the value of promoting activity and engagement with life for a person with dementia
- Identify goals of engagement to promote different aspects of wellbeing
- Identify ways of adapting activities to meet individual needs
- Develop an individualised activity plan for a person with dementia

Trainers' Profile

Joanne Loy is a DACE and ACTA certified full time dementia care trainer with Dementia Singapore (formerly known as Alzheimer's Disease Association (ADA)). She is also a certified Dementia Care Mapping (Basic User) by University of Bradford and Spark of Life certified facilitator. Joanne has conducted training sessions for family and professional caregivers. She is passionate about dementia care and has actively involved in public education on dementia awareness, including raising dementia awareness among seniors at senior activity centres. Prior to becoming a full-fledged trainer, Joanne was a key member of the Eldersit team in ADA which her main role was to provide guidance and taught eldercare workers on ways to engage persons with dementia in meaningful activities at home.
